PROFILE & OBJECTIVE

Computer Science Engineering student with strong skills in Python, Java, and SQL, plus hands-on experience in cloud computing (AWS, Oracle Cloud Infrastructure), AI and GenAI (LLM fine-tuning, OpenAI API), and full-stack web development. Seeking a Software Engineer role where I can apply these skills to real-world, data-driven projects.

SKILLS

Programming: Python, Java, C, SQL, HTML/CSS, React, Node.js, Express, MongoDB, Redis

Cloud: AWS Academy (Cloud Architecting, Cloud Foundations), Oracle Cloud Infrastructure (OCI)

AI / GenAI: TensorFlow, Keras, Deep Learning, LLM Fine-Tuning (Llama, GGUF Quantization, Ollama), OpenAI API, Groq

Data Analytics: Exploratory Data Analysis, Data Visualization, Pandas, NumPy

Core CS: Data Structures & Algorithms, OOP, DBMS, Full-Stack Web Development

Other: Communication, Team Management, Mentorship, Entrepreneurship

EXPERIENCE

Software Developer Intern

May 2025 – July 2025

Yarsi Corporation, Noida

- Developed the company's website using React, prioritizing a clean UI and mobile-friendly, responsive layouts.
- Gained hands-on experience with industry workflows: debugging, Git-based collaboration, and foundational concepts of LLM-based AI chatbots.
- Translated design mockups into interactive screens and ensured consistent performance across multiple devices.

PROJECTS

Vitty LLM: LLM Fine-Tuning and Deployment | *Llama, GGUF Quantization, Ollama*

Oct – Dec 2025 | [Ollama](#)

- Built a fine-tuning and deployment pipeline for a Llama-based LLM, including a custom data ingestion workflow and quantization for deployment on resource-constrained devices.

HealthSync: Healthcare Appointment and Follow-up Manager | *React, Node.js, Express, PostgreSQL, Prisma* [GitHub](#) | [Live Demo](#)

- Built a full-stack healthcare platform with separate portals for patients, doctors, and admins, covering appointment booking, scheduling, and profile management, using React on the frontend and Node.js, Express, and PostgreSQL (with Prisma ORM) on the backend, across a schema of 10+ database tables.
- Added AI-based symptom summaries using the OpenAI API, along with email notifications, Google Calendar sync, and automated medication reminders using scheduled background jobs.

Eventallify: Campus Event Management Platform | *Next.js, TypeScript, PostgreSQL, Drizzle ORM*

[GitHub](#) | [Live Demo](#)

- Collaborated with a fellow student on a campus event management platform using Next.js, TypeScript, and PostgreSQL (Drizzle ORM), letting students discover, register for, and track campus events.
- Contributed to platform features including event registration with QR code tickets, an admin dashboard for managing events and announcements, and a Groq-powered AI chatbot widget, with a responsive UI built from 60+ reusable components.

ParcelPilot AI: Support and Operations Copilot | *Python, FastAPI, React, TypeScript, LangGraph, MongoDB*

[GitHub](#) | [Live Demo](#)

- Built a full-stack support and operations tool using Python, FastAPI, and React, where decisions like cancellations, fees, credits, and SLA status are calculated by rule-based code instead of AI, keeping answers accurate and explainable.
- Combined document search with multiple AI models with automatic fallback to answer support questions, and required human review before any AI-suggested action, such as a ticket update or refund, could go through.

CERTIFICATIONS

- AWS Academy Graduate:** Cloud Architecting ([Credly](#)) and Cloud Foundations ([Credly](#))
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate** – Score: 98% (ID: 102993796OCI25FNDCA)
- Oracle:** Java Certified Foundations Associate and MySQL HeatWave Implementation Certified Associate Rel 1
- Learn Java Programming: Beginner to Master**, Udemy ([Certificate](#))
- LeetCode SQL 50 Study Plan** (Completed) and **NPTEL: Algorithmic Graph Theory and Data Structures** (Completed)

ACHIEVEMENTS & ACTIVITIES

Shortlisted among the top 47 teams in ECS, VIT-AP University. Android Club: Events Team Member. Co-curricular: Debate & Discussion, Listening Skills. Extracurricular: Cricket, Volleyball. Hobbies: Reading, Gaming, Coding.
